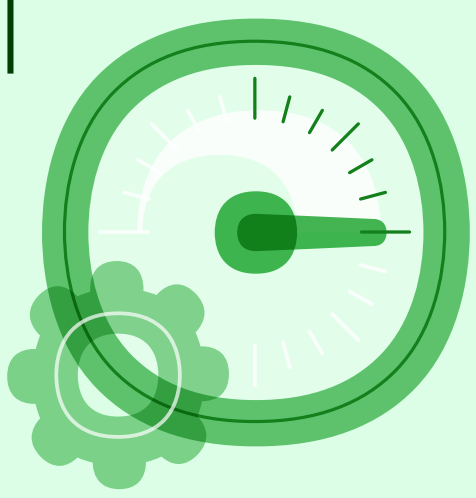
ADC Efficiency by the Numbers
XT #1 Nurse-Recommended Brand

1



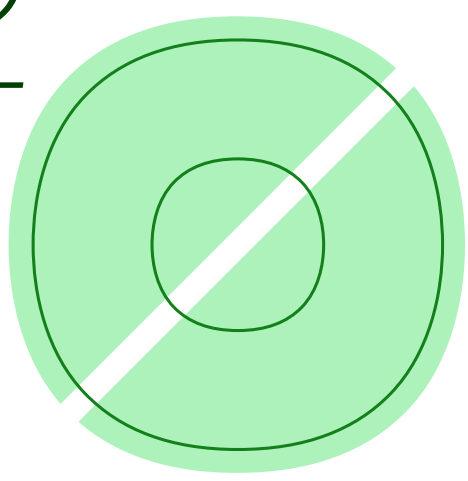
54% reduction in medication retrieval time

- Integration with EHR
- Guiding Lights
- Large, responsive touch screens
- Faster processing

2

Zero countbacks

Controlled Substance Dispenser eliminates tedious countbacks and time spent resolving discrepancies



3

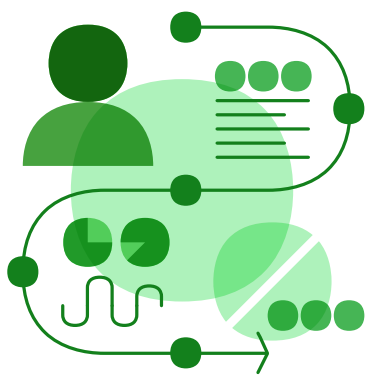
30% greater capacity

Compared with similar units on the market—helps reduce stockouts

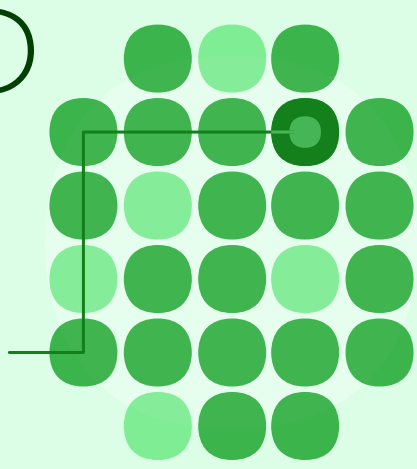
4

30% fewer missing doses

With automated system for managing patient-specific medications



5



74% time savings

Reconciling controlled substance “dispensed vs. administered” discrepancies—via advanced EHR integration

6

8 versatile drawer choices

Smart designs and bin options enable more optimal storage, saving time on medication removal
