# Omnicell®

Guided Packing Software

Start Up Multimed Packaging with Low Cost of Entry

Smart Design

Easy-to-use Omnicell Guided Packing Software lets you start providing differentiated adherence packaging services quickly, with very little investment. Paired with SureMed multimed blister cards, this cloud-based software increases packing accuracy while allowing your pharmacy to meet customer demand for multi-dose blister cards.

Key Features

- Easy-to-understand, clearly marked day-of-the week and time passes

- Larger blister sizes to accommodate larger doses

- Card label includes patient information, drug information and full-color drug images

- Option to customize by printing your pharmacy logo prominently on the front of the card

Detailed drug information on inside cover

Clearly marked day of week and time passes

Drug information on blister lidding
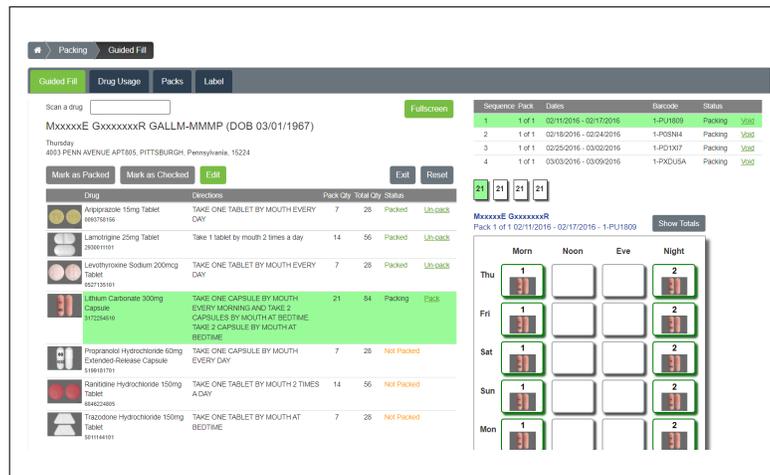

SureMed 30 day 6 x 5 card

SureMed 7 day card multiple options available

Improved Workflow

Guided Packing web-based software allows pharmacies to improve SureMed multimed blister card fill throughput with one-step labeling and elimination of double data entry.

Key Features

- Seamlessly integrates with:
  - Pharmacy Information System allowing you to generate a patient-specific label
  - Drug databases, enabling NDC substitutions and inclusion of OTCs
  - EMAR barcode technology (see list of active interfaces on Omnicell.com)
- Configure your SureMed cards using the Guided Packing card customization and labeling options
