automation
solutions

An Unparalleled Partnership

Omnicell's curated portfolio for MHA members provides superior pricing opportunities, along with the high-quality products and premier customer service Omnicell is known for.

A Diverse Medication Adherence Packaging Portfolio

Our medication adherence solutions include a wide range of medication packaging and labeling supplies to enhance medication administration and adherence in a variety of non-acute care settings. We offer single-dose blister cards and multimed adherence cards, in addition to software that streamlines packaging and labeling workflows while increasing accuracy.

Single-Dose Blister Cards

Omniceil is the North American manufacturing leader of single-dose blister cards, which are the standard of care for medication administration in many care settings. Our easy-to-use blister cards allow staff to clearly identify whether medications have been administered, and provide visual reinforcement for the point of re-order.

- Heat Seal, Cold Seal, and Reclaimable Cards
- Dose Formats: 14, 15, 16, 28, 30, 31, 32, 60, 62, 90
- Economical 2-Piece offerings and Efficient 1-Piece offerings
- Unit-Dose Offerings for First Doses

MultiMed Adherence Packaging

Omniceil multidose cards are designed for both patient safety and pharmacy accuracy. They clearly organize multiple medications in an easy-to-follow format that provides instant visual reinforcement of what to take and when.

Our multidose portfolio is offered in a variety of sizes and geometry, with easy-to-read days of the week and time passes. Much of our portfolio also allows for in-pharmacy customization of pharmacy branding, as well as a custom consolidated label with patient and medication information.

Automation Partners

Omniceil medication adherence packaging compatibility extends beyond Omnicell equipment and automation solutions. We actively collaborate and maintain relationships with other leading automation vendors to ensure seamless workflows and scalable options, for any pharmacy size. We offer a full range of compatible consumables for partners and solutions including:

- Dosis® by Manchac
- Parata® SynMed® XF and SynMed® Ultra
- McKesson® Canada BlistAssist®
- RxSafe® RapidPakRx™

Labels and Printing

Omniceil is a leading manufacturer of prescription labels. We offer a variety of laser labels and thermal transfer labels whose geometries are compatible with several of the leading software vendors. We additionally offer the ability to represent your pharmacy's brand through custom label solutions for all your pre-packing and patient-specific labeling needs.

Automated Dispensing Units

At the center of Omnicell's portfolio of automation, intelligence and technology-enabled services, the award-winning XT Automated Dispensing System allows pharmacies to offer a state-of-the-art emergency dosing solution.

- Highest capacity on the market
- Metal locking lid drawers for security and safety
- Simple user workflows for improved efficiency
- Flexible and scalable design to adapt to changing medication needs

Medication Adherence Solutions to Help MHA Members Succeed
